

POSNOC MAY 2023 UPDATE

Annual Checks

Thank you to the **56%** of sites who have completed the annual checks! If your site has *not* yet completed the annual checks, please ensure you return the version document checklist, core team staff details form, your latest delegation log, and up-to-date CVs and GCPs for all delegated staff members to the POSNOC inbox by the 14th June. We really appreciate your efforts to complete these checks.

Protocol v6.1

Protocol version 6.1 was circulated to all site PIs on the 15th May following MA39. The amendment will be implemented on the 1st June. Please ensure all signed protocol acknowledgement pages for version 6.1 are signed and returned to us by the 14th June.

POSNOC's New Trial Manager

Hi POSNOC teams!

I'd like to introduce myself – my name is Sammi Harrison and I have joined the POSNOC team here at the Nottingham Clinical Trials Unit as a Trial Manager. I look forward to working with you all on this exciting project! Please bear with me whilst I familiarise myself with the trial and catch up on recent correspondence.

What does this mean for your site? Other than a change of name at the bottom of some emails, this staffing change does not affect your site or how the study is conducted. Please continue to use the POSNOC@nottingham.ac.uk inbox for any enquiries.

Thank you for all of your hard work. Whether you have been a part of your local POSNOC team since the trial began, or if you joined this year, your contribution to this research is greatly appreciated

Nice to “meet” you all!

Your POSNOC Team
