

Annual Checks

The annual checks were sent out in January and have been completed by just **41%** of sites! Please ensure you return the version document checklist, core team staff details form, your latest delegation log, and up-to-date CVs and GCPs for all delegated staff members to the POSNOC inbox by the **10th March**.

Data completeness

All 12-month data should now be entered and there are just **six** sites who do not have 100% of data entered at the 12-month timepoint. If there is anything we can do to assist you in entering this data, please let us know!

47 sites have 100% of *all expected* data entered! This is excellent! Thank you!

There are twenty sites with $\leq 95\%$ of expected data entered.

San Antonio Breast Cancer Symposium 2022 Poster

In December, Amit Goyal, our CI, attended the SABCS and presented a poster on recruitment, clinical equipoise, patient acceptance and compliance in POSNOC. This is attached to the newsletter for your information!
