

# the POSNOC study

## SITE NEWSLETTER - SUMMER EDITION - JULY 2024

***Thank you for your continued hard work on the POSNOC study, we are grateful for each and every one of you for your help in completing and entering data. As we continue through the follow up phase of the trial, it is key that we do not lose track of patients who remain on trial.***

### Substantial Amendment 09 implementation

The implementation date for this amendment was 16-May-2024.

This amendment includes the addition of remote questionnaires for participants reaching their 60 month timepoints. We will be collecting 60 month data on quality of life, anxiety, arm morbidity and lymphoedema. As you will be aware, we were collecting this data up to the 36 month follow up. By gathering this data at 60 months also, we will be able to compare how these results change over the five years after a patient receives their initial breast cancer treatment. This will help increase the impact of the POSNOC trial results.

Please note: these 60 month questionnaires are coordinated centrally and do not require a change of current site activities.

Please continue to send us your completed PI protocol signature page, via email at [posnoc@nottingham.ac.uk](mailto:posnoc@nottingham.ac.uk)

### CRF completion on MACRO

#### ATTENTION

Recurrence (If Recurrence, ensure 'Loco-Regional and Treatment of Axillary recurrence' logs are completed)	<input type="text"/>	<a href="#">Link to Loco-Regional Recurrences log</a> <a href="#">Link to Treatment of Axillary Recurrence log</a>
Distant Metastasis (If Distant Metastasis, ensure 'Distant Metastasis (Breast Cancer)' log is completed)	<input type="text"/>	<a href="#">Link to Distant Metastasis (Breast Cancer) log</a>
Contralateral Primary Breast Cancer (If Primary Breast Cancer, ensure 'Contralateral Primary (Breast Cancer)' form is completed)	<input type="text"/>	<a href="#">Link to Contralateral Primary Breast C</a>
Non Breast Cancer (If Non Breast Cancer, ensure 'Non Breast Cancer' log is completed)	<input type="text"/>	<a href="#">Link to Non Breast Cancer log</a>
Death (If Death, ensure 'Death form' and 'End of Trial' page are completed)	<input type="text"/>	<a href="#">Link to Death form</a> <a href="#">Link to End of Trial form</a>

When completing participant status, please answer the questions with respect to events that have occurred since the *previous* follow up was completed, only.

For example, if a patient had a recurrence and you provided details of this at the 4 year follow up, you *do not* need to provide these details again at the 5 year follow up, unless they relate to a new recurrence.

## Annual Site Check Update

It has been a few months since we began our annual site check and look how far we have come! 41% of you have completed it entirely; well done! Additionally, 20% of you have returned at least 1 document; please get the remaining documents to us ASAP.

For the remaining sites who have yet to return anything, please do so via email at: [posnoc@nottingham.ac.uk](mailto:posnoc@nottingham.ac.uk)

## POSNOC Team update and contact information

POSNOC Email: [posnoc@nottingham.ac.uk](mailto:posnoc@nottingham.ac.uk)  
Telephone: 0115 8231624  
Trial website: [www.POSNOC.co.uk](http://www.POSNOC.co.uk)

Senior Trial Manager: Hugh Jarrett  
Trial Manager: Sammi Harrison  
Trial Administrator: Jake Robertson  
Data Coordinator: Arfan Ali  
Medical Statistician: Cydney Bruce

Please join us in welcoming Jake to the POSNOC team. Jake started with us in May, so some of you may have already had contact, and has taken over Hadia's previous duties on POSNOC.

## A big thank you from POSNOC!

The POSNOC trial initiated in January 2014, and here we are 10 years later, ever coming closer to the conclusion of this ground breaking research! We would like to thank all staff, both past and present, on their hard work and commitment to POSNOC!
